CAREER OBJECTIVE

B.Tech graduate in Information Technology with hands-on knowledge of Python, SQL, web development, and full-stack technologies. Experienced in building academic and personal projects involving machine learning and web applications. Seeking an entry-level IT/Software role to apply technical skills, learn new technologies, and contribute effectively to organizational goals.

TECHNICAL SKILLS

Programming: Python, JavaScript

Web Technologies: HTML, CSS, React.js

Backend: Node.js, Express.js

Database: SQL

Tools: Git, GitHub, VS Code

Other: REST APIs, Responsive Web Design

PROJECTS

Sashvika Multicuisine Restaurant — Full-Stack Web Application

- Developed a responsive restaurant website featuring food categories, menu items, a user-friendly interface, and authentication functionality.
- Built frontend components using React.js and implemented backend functionality using Node.js and Express.js.
- Integrated database functionality for managing application data.
- Deployed the application online using Vercel.

Live Project: <https://sashvika-multicuisine.vercel.app>

Employee Retention & Attrition Prediction — Machine Learning

- Developed a machine learning model to analyze employee-related factors and predict employee attrition.
- Performed data preprocessing, exploratory data analysis, feature preparation, model training, and evaluation using Python.
- Applied machine learning techniques to identify key factors associated with employee retention and attrition.
- Presented findings through data analysis and model evaluation.

EduVQA — Multimodal Visual Question Answering

- Developed an academic project focused on answering questions related to educational images, diagrams, charts, and visual content.
- Combined visual and textual information to improve question-answering capabilities.
- Worked with image feature extraction, text encoding, multimodal fusion, and answer generation.

EDUCATION

B.Tech, Information Technology (IT)

CMR College of Engineering & Technology, Hyderabad

2022 – 2026

Intermediate (MPC)

Sri Vedha Junior College, Hanamkonda

2020-2022

Schooling

TSMS Model School, Edlapally

2019-2020

TRAINING

- Full-Stack / Software Development Training covering Python programming and OOP concepts, SQL and database fundamentals, HTML, CSS, and JavaScript, React.js, Node.js and Express.js, and web application development.

STRENGTHS

- Quick learner and adaptable to new technologies
- Team collaboration
- Problem-solving and analytical thinking
- Willingness to learn and take responsibility
- Good communication skills

INTERESTS

Music | Dancing | Chess | Anime
